

**Costs Associated with
WELLS Angels Program:**

Costs for participation will vary based on each participant's needs. Many insurance companies will cover costs associated with required testing, medication and preventative care related to this wellness program.

What if I Don't Have Insurance but Need the Care Offered Through This Program?

If you do not have the ability to pay for costs associated with this program due to lack of insurance, insurance with high deductibles or other financial factors, a limited amount of funding is available to assist with those people who qualify. Funding for this is provided through the Blue Health Advantage Wellness Grant Program and support from the Chase County Hospital Foundation.

If you need assistance, please contact us to find out if you qualify.

WELLS Angels Program

The **WELLS Angels Program** is funded by a grant from Blue Cross and Blue Shield of Nebraska Blue Health Advantage Wellness Grant Program financial support from the Chase County Hospital Foundation.

The Imperial Lions Club will also be helping with various social and educational activities related to the **WELLS Angels Program**

Wellness hours are every Thursday from 9am-5pm

Support**

Chase County Community Hospital and Clinics are excited to announce a new wellness management program to maintain and improve health for those at risk of diabetes and cardiovascular diseases.

To learn more, look inside...

What is the **WELLS Angels Program**?

Diabetes and Cardiovascular diseases can produce devastating results if proper treatment and preventative measures are not taken. The overall goal of the **WELLS Angels Program** is to improve general health and energy levels of participants, assist them in reaching the highest level of daily functioning possible and reduce potential cardiovascular events, stroke, amputations and other consequences related to diabetes and cardiovascular disease.

Major Program Components:

Wellness & Energy Plan

- 1) Each participant will have a Complete health record search to review prior care and determine current and future needs.
- 2) Participants will be assessed to see if further testing such is needed
- 3) Routine visits will be scheduled where participants will have their vitals signs checked, receive foot exams and be evaluated for diabetic foot care.
- 4) Participants will be scheduled for follow up visits based on need. Example: One month, three month, six month or annual

Major Program Components (cont):

Life, Laughter and Support Plan

1) **WELLS Angels Support Group:** In addition to the medical portion of the program, a support network of program participants will be developed. This will include, but not be limited to:

Online Patient Portal: Program participants will be introduced to **eClinical Works** Web-based Patient Portal. This system is available through Chase County Community Hospital and allows patients and doctors to communicate easily, safely and securely over the Internet. Patients can log into the system and view prescription information, lab results, diagnostic results and appointment information in a timely manner. Doctors can automatically send health maintenance reminders to patients, procedure due dates, and other related information. Patients can also contact their doctors and or nurses with questions via this portal, minimizing missed phone calls and messages.

Social & Educational Activities: Social support groups can be effective in helping individuals deal with serious diseases. As part of the **WELLS Angel's Program**, social and educational activities to be implemented, include but are not limited to

a) **Social Activities:** During the course of the year at least one social activity will be held to introduce new participants to the WELLS Angels program and celebrate achievements of those individuals already participating.

b) **Social Networking:** An electronic social media site (such as Facebook) will be established for those participants who wish to stay in contact and support each other in their health efforts.

c) **Educational Activities:** Educational trainings will be organized to help participants learn how to use the Patient Portal. For those participants interested in electronic social networking media, related training will be provided. At least two meetings per year will be held featuring health topics related to cardiovascular and diabetes diseases.

d) **Newsletter:** A quarterly newsletter will be provided to all participants. The newsletter will include health tips and upcoming events related the WELLS Angels program
