

CHASE COUNTY SPECIALTY CLINIC

Matthew Rutman, M.D.

Board-Certified Urologist

Specializing in Urology & Female Pelvic Medicine and
Reconstructive Surgery (FPMRS)

ABOUT YOUR PROVIDER

Dr. Matthew Rutman brings world-class urological expertise to our community. He joins us from Columbia University Medical Center, where he served as an Associate Professor of Urology and the Director of Voiding Dysfunction, Incontinence, and Female Urology.

Dr. Rutman is a distinguished educator and researcher, having authored over 40 book chapters and publications in leading medical journals. His clinical focus is on improving quality of life through advanced surgical outcomes and compassionate care.

Expertise & Procedures Dr. Rutman specializes in both male and female urologic health, offering advanced treatments including, but not limited to:

- Men's Health: Benign Prostatic Hyperplasia (BPH) using new treatment modalities like the Green Light Laser Procedure, prostatitis, and urinary retention.
- Female Urology & Reconstruction: Specialized surgery for vaginal prolapse, urethral diverticulum, and vesico-vaginal fistulae.
- Voiding & Bladder Dysfunction: Expert management of overactive bladder, urinary incontinence, neurogenic bladder, and interstitial cystitis.
- Advanced Treatments: Botox treatments for bladder issues, urodynamics, and management of chronic urinary tract infections (UTIs).

Education & Training

- Education: Graduated with honors from Emory University and The Chicago Medical School.
- Residency: William Beaumont Hospital.
- Fellowship: Specialized in female urology, voiding dysfunction, and neurourology at UCLA Medical Center under the world-renowned Dr. Shlomo Raz.

CHASE COUNTY SPECIALTY CLINIC

Matthew Rutman, M.D.

Board-Certified Urologist

Specializing in Urology & Female Pelvic Medicine and Reconstructive Surgery (FPMRS)

Because Dr. Rutman is board-certified in both Urology and Female Pelvic Medicine and Reconstructive Surgery (FPMRS), his expertise is uniquely broad, covering both general urology and specialized voiding/pelvic health for both men and women.

Men's Urologic Health

- Enlarged Prostate (BPH): Diagnosis and management, including modern treatments like Rezūm, UroLift, and laser procedures (TURP).
- Prostate Health: Elevated PSA (Prostate Specific Antigen) screenings and prostate cancer exams.
- Voiding Dysfunction: Difficulty urinating, urinary retention, and urinary hesitancy.
- Sexual Health: Erectile dysfunction, low testosterone (hypogonadism), and Peyronie's disease.
- Prostatitis: Treatment for both acute and chronic bacterial inflammation of the prostate.

Women's Urologic & Pelvic Health

- Pelvic Organ Prolapse: Reconstructive surgery for vaginal, bladder (cystocele), and uterine prolapse.
- Incontinence: Expert care for stress incontinence, urge incontinence, and overactive bladder (OAB).
- Chronic Conditions: Interstitial cystitis (painful bladder syndrome) and recurrent Urinary Tract Infections (UTIs).
- Complex Repairs: Vesico-vaginal fistula repair and urethral diverticulum.

General Urology (All Genders)

- Urinary Stones: Management and removal of kidney, bladder, and ureteral stones.
- Bladder Health: Neurogenic bladder (often related to neurological conditions), bladder stones, and bladder diverticulum.
- Infection Care: Acute and chronic kidney infections, cystitis, and general UTIs.
- Symptom Management: Hematuria (blood in urine), nocturia (excessive nighttime urination), and dysuria (painful urination).
- Advanced Diagnostics: Urodynamics (testing how the bladder holds and releases urine) and Cystoscopy.

Specialist Procedures Offered

- Neuromodulation: InterStim® (bladder pacemaker) and Percutaneous Tibial Nerve Stimulation (PTNS) for refractory bladder issues.
- Botox Injections: For the treatment of overactive bladder.
- Minimally Invasive Surgery: Specialized techniques for faster recovery times in pelvic reconstruction and prostate care.
